

Eden On Fire – Official Bio

Genre: Symphonic Melodic Metal | Hard Rock

Hometown: Erie, Pennsylvania

Label: Devil Inside Records (DI Records)

🔥 About the Band

Eden On Fire is a powerhouse of symphonic melodic metal, igniting stages with cinematic soundscapes, fierce guitar work, and emotionally charged vocals. Founded in 2021 by vocalist/keyboardist Amy Gould, the band emerged from the stillness of a global pandemic to forge something bold, theatrical, and unapologetically powerful.

Blending the raw emotion of classic hard rock with the cinematic punch of symphonic metal, Eden On Fire channels influences like Metallica, Pat Benatar, Beyond the Black, and Judas Priest, while shaping a sound that is uniquely their own.

What started in Amy's home studio quickly evolved into a full-fledged project as talented musicians joined the fire — transforming the solo vision into a dynamic live act turning heads across the region and beyond.
